The City of El Monte is moving forward with the Garvey Avenue Drainage and Street Improvement Project. The Capital Improvement Project will alleviate the flooding issues at the Garvey Avenue grade separation, construct landscaped median islands, and other street improvements.

Project Objectives:

- Alleviate flooding at the Garvey Avenue Grade Separation
- Recharge groundwater with captured and treated stormwater runoff to improve water quality
- Street rehabilitation to include construction of landscape median islands
- Construct ADA compliant curb ramps
- Repair of damaged sidewalks, driveways, and curb & gutter
- Sustainable and environmentally friendly design
- Install new Class II bike lanes

The City of El Monte will be hosting a virtual community meeting to provide information on the project. Join us to learn more about the upcoming construction improvements.
